Delta recessed handle for sliding doors

Flush-mounted handle for side-locks on sliding windows and doors. The control lever is operated in a vertical direction both during opening and closing with red/green.

The body and the control lever are made from aluminium while the mechanisms are made from zamak, stainless steel screws (2 screws TB M5 x 10). It is reversible and this application on the window is quick and secure.

Deltakey recessed handle for sliding doors

Flush-mounted handle for side-locks on sliding windows/doors, fitted with a cylinder lock (with own key). The control lever is operated in a vertical direction both during opening and closing with red/green. The body and the control lever are made from aluminium while the mechanisms are made from zamak, stainless steel screws (2 screws TB M5 x 10). It is reversible and its application on the window is quick and secure.

Delta duplex recessed handle with external pull chamber

Flush-mounted handle for side-locks on sliding windows and doors coupled with external pull chamber. The control lever is operated in a vertical direction both during opening and closing with red/green. The body and the control lever are made from aluminium while the mechanisms are made from zamak, stainless steel screws (2 screws TB M5 x 20 + 2 screws TB M5 x 35). It is reversible and its application on the window is quick and secure.

Delta pull handle mm 168

Aluminium pull handle to be applied on sliding windows/doors can be mounted in combination with recessed handles "Delta".

Luna cremone offset handle right spindle 29 mm

Die-cast aluminium handle and zama case. It differs from the basic casement bolt because, apart from having only one transmission fin, it has an offset handle for ease of grip since it is to be applied on the lower strut of outward opening windows.

21810.00.82

LunaKey cremone offset handle right spindle 29 mm

Luna cremone offset handle left spindle 29 mm

Die-cast aluminium handle and zama case. It differs from the basic casement bolt because, apart from having only one transmission fin, it has an offset handle for ease of grip since it is to be applied on the lower strut of outward opening windows.
